Professional summary

Ingenious and determined recent graduate with a degree in Automation and Applied Informatics. I have a strong foundation in programming, system automation, and data analysis, gained through both academic and professional experiences. With a background as a fluvial mariner and various technical roles, I bring a unique perspective to problem-solving in the technology sector. I am seeking opportunities to apply my skills and continue developing my career in the technology field, particularly in automation and IT.

Professional experience

Fluvial Mariner (16.08.2022 - 07.02.2024)	**RiverTech Crewing** - Worked on the cruise ship AmaSonata - Ensured safe navigation and maintenance of the vessel. - Collaborated with an international team to deliver exceptional service.
